

### The Black Rock Mines.

The Black Rock company's claims near Jerome have met all previous expectations. The company has been at work for the past few months with a fifty horse power hoist, and have good sized camp established.

They have a couple thousand tons of rich copper ore on the dumps taken from the main shaft, which is now down about 145 feet on a vein of ore varying in width from 5 to 8 feet, assaying from \$20. to \$80. per ton. The main value being in copper, though good values are realized in gold and silver.

A 100 foot drift is being run into the mountain along the vein, and a shaft is being sunk at the same time.

The company are now making preparations to put up machinery on another group of fourteen claims about fifteen miles south of the group in the Jerome mountain, as they claim that this group has made a wonderful showing as far as it has been worked. There are ore centers, ledges, veins and kidney ore found all over the claims. Two shafts have been sunk, sixty and seventy-five feet, and rich ore was taken out, but work was stopped here to develop the other property.

The company is composed of honorable men who are above stock jobbing schemes, which have been so common in the past, and who have directed their energies to the development of their holdings.

The whole section surrounding these properties is rich in good paying mines; which have started with a very much poorer showing.

### Mysterious Circumstance.

One was pale and sallow and the other fresh and rosy. Whence the difference? She who is blushing with health uses Dr. King's New Life Pills to maintain it. By gently arousing the lazy organs they compel good digestion and head off constipation. Try them. Only 25c, at all druggists.

Prof. T. J. J. See of the United States navy has been elected an honorary member of the Sociedad de Astronomica de Mexico, the national astronomical society of Mexico. It was at Mexico City that Prof. See discovered several hundred important double stars in the unexplored regions of the southern heavens with a large telescope of the Lowell observatory in 1897, and he has since published these and many other observations made in Arizona and at the naval observatory in Washington. Prof. See was for several years connected with the Lowell observatory of Flagstaff, and it was during his association with this observatory that he obtained his practical working knowledge of astronomy. He is at present stationed at the United States naval academy in Annapolis.

### For Stomach Troubles.

"I have taken a great many different medicines for stomach trouble and constipation," says Mrs. S. Geiger of Dunkerton, Iowa, "but never had as good results from any as Chamberlain's Stomach and Liver Tablets." For sale by Pioneer Drug Store.

### LETTER LIST.

List of letters remaining in the post-office, uncalled for, for the week ending February 28, 1903:

Bell, C. E. Carpenter, Smith  
Lawton, C. B. Mass, C. F.  
McFarren, Jas. A. Pettit, E.  
Woods, John Wood, F. W.

### Mexican.

Apodaca, Alberto Pineda, Victor  
Libra, Santa L. Sanchez, Pablo

When inquiring for the above mail, please say advertised.

T. J. COALTER, P. M.

### PERT AND PERSONAL.

A. S. Cook, the Boston merchant, is the king of the Maine camp owners. He now controls 400 square miles of sporting territory in that state.

Henry Cole, of Denver, started to convert his estate of \$400,000 into cash for the poor, but was halted by his wife, who reminded him that half of it was hers.

Congressman Lacey, of Iowa, has contributed to the Congressional Record an essay in which he says: "The buffalo was the noblest of all the wild animals that inhabited this country when America was discovered. He was gentlemen among beasts, just as the game hog is a beast among gentlemen."

Speaking the other day of defects of the memory, Senator Dillingham read the story of a noted character in Vermont who once sent a messenger by the senator to his father in these words: "You tell the governor that although I am getting along in years, I can see just as well as I ever could; I can hear just as well; my mental powers are unimpaired; and if I have ever forgotten anything, I must say that I cannot remember what it was."

Measured by the foot rule, M. Combes, the new French premier, does not amount to much, being only five feet three inches tall, but it is said that no statesman now alive, nor in a generation, except Gladstone, equals him in the range of mental labor. He is by profession a physician, but he cannot have practiced much. He was at one time a schoolmaster, and is a leading authority on French educational affairs. His scholarly and literary activities have for years been large and comprehensive, embracing such topics as the Latin poet, Virgil, Kant's metaphysics, the philosophy of St. Augustine and the social theories of St. Simon.

### OUT OF THE ORDINARY.

A large batch of Missouri officials have been indicted for playing penny ante on a fishing trip.

Oaths are said to be coming into popularity again in London society, after a century, golf and ping-pong being responsible for the revival.

One of the batsmen in a recent cricket match at Thomas Ditton drove a ball hard into the long field, where it struck a thrush which had just settled, killing it instantly.

Dr. Isaac E. Emerson, the noted Baltimore physician, who has been making a tour of the world, will arrive home about the middle of June. His yacht, the Margaret, was the first that ever visited Bombay, India, and Dr. Emerson was the first American to be elected a member of the Royal Yacht club of Bombay.

The ping-pong fad is responsible for much, and now we have the ping-pong kleptomaniac. In the Waldorf-Astoria ping-pong gallery the other night a young man in evening dress was playing. His frequent calling for new balls aroused the attention of an attendant, who at last saw him deftly slip a ball into his coat pocket. Then the attendant called a house detective.

An attempt to climb the highest Himalayas will be made this year by a party consisting of three Englishmen, two Austrians and a Swiss, Dr. Jacot-Guillarmod. They are accompanied by Swiss guides. They will begin with the Godwin Austen, 28,250 feet high and Dapsang, 28,655 feet high. If they are successful they will then try Mount Everest, the highest mountain in the world, 29,000 feet high. The Himalaya record is held by Sir Martin Conway, who climbed the Pioneer Peak, 21,000 feet high, ten years ago.

### Advice Wanted.

Young Man—I came to ask you for the hand of your daughter, sir.

Old Man (the father of seven)—Which one of my daughters, young man?

"That's another thing I wanted to ask you. Now, as a friend, which one would you advise me to take?"—Chicago Daily News.

## AMERICA'S BEST REPUBLICAN PAPER.

Editorially Fearless.

Consistently Republican Always.

News from all parts of the world. Well written, original stories. Answers to queries on all subjects—Articles on Health, the Home, New Books, and on Work About the Farm and Garden.

## THE WEEKLY INTER OCEAN

THE INTER OCEAN is a member of the Associated Press and also is the only Western newspaper receiving the entire telegraphic news service of the New York Sun and special cable of the New York World, besides daily reports from over 2,000 special correspondents throughout the country. No pen can tell more fully why it is the best on earth.

52—TWELVE-PAGE PAPERS—52 ONE DOLLAR A YEAR

Brilliant of news from everywhere and a perfect feast of special matter . . .

Subscribe for The Coconino Sun and The Weekly Inter Ocean one year both papers for \$2.50.

## SAVE \$2 PER DAY

by using Santa Fe Tourist Sleeping Cars to Kansas City and Chicago. The rates are less than half of Palace Sleepers. Personally Conducted Mondays, Thursdays and Saturdays.

## SANTA FE

### FLAGSTAFF ASSAY OFFICE, DOUGLASS & FRANCIS.

Flagstaff, . . . Arizona.

Office hours 11 a. m. to 12 m.

### IF YOU WANT—

A BOY,  
A GIRL,  
A MAN,  
A WOMAN,  
TO FIND ANYTHING,  
TO BUY ANYTHING,  
TO SELL ANYTHING,  
TO RENT ANYTHING,  
TO LOAN ANYTHING,  
TO TRADE ANYTHING,

If you want anything on earth, put an ad. in THE SUN and you will be sure to get it. Try it.

Mrs. Laura S. Webb.

Vice-President Woman's Democratic Club of Northern Ohio.

"I dreaded the change of life which was fast approaching. I noticed Wine of Cardui, and decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax."

Female weakness, disordered menses, falling of the womb and ovarian troubles do not wear off. They follow a woman to the change of life. Do not wait but take Wine of Cardui now and avoid the trouble. Wine of Cardui never fails to benefit a suffering woman of any age. Wine of Cardui relieved Mrs. Webb when she was in danger. When you come to the change of life Mrs. Webb's letter will mean more to you than it does now. But you may now avoid the suffering she endured. Druggists sell \$1 bottles of Wine of Cardui.
